

PRODUCT UPGRADE

**RUPES**

## UPGRADED **HLR75** EQUIPPED WITH THE **NEW CONTROL LEVER THROTTLE LOCK**

### PREVENTS ACCIDENTAL STARTS AND ENSURES OPERATOR SAFETY

Engineered for precision and safety, this innovative addition securely locks the trigger in place when not in use preventing accidental starts during polishing sessions and ensuring high safety for the operator. Upgrade your polishing arsenal today and experience the next level of safety and convenience!

**NOTE: the upgraded HLR75 now comes standard in all new orders, with the same product codes**

If you currently own an HLR75 without the Throttle Lock feature, simply order the Throttle Lock as a spare part (code **38.430/C**) and effortlessly mount it onto your HLR75
